

Subject Selection Parent Information Evening Tuesday 24th May 2022 Performing Arts Centre

Dear Parent/Guardian

You are invited to attend the Subject Selection Parent Information Evening on Tuesday 24th May 2022. It will be conducted in the Thornlie SHS Performing Arts Centre. Mrs McDonald (Principal), Mr De Meo (Deputy Principal – Senior School), Mrs Stewart (VET Program Coordinator) and Mrs Lockyer (Manager Operations) will present information concerning Year 11 courses for 2023 and the course selection process.

It is very important that at least one parent attend, together with your child, to gather information regarding requirements to successfully achieve the Western Australian Certificate of Education in 2024. We will also be discussing the various subjects Thornlie SHS offers as well as the subject selection process.

Parents and students will be issued with selection booklets, subject selection and teacher recommendation sheet, a course selection guide as well as their individual Course Counselling interview time.

The evening will consist of two separate sessions:

- At **6.00pm** there will be a presentation targeting students who are intending studying a **General pathway** in Year 11 and 12. This is for students who are pursuing employment, an apprenticeship or TAFE entrance after Year 12.
- At **7.00pm** the presentation will target students who are intending studying an **ATAR pathway** to gain university entrance on completion of Year 12.

Parents are encouraged to stay for both presentations if their child is uncertain which pathway to study in Year 11.

This is an opportunity to obtain important information and ask questions of the administration staff.

I strongly urge that you attend this meeting as the information to be presented will enable you and your child to select the most appropriate courses.

I look forward to seeing you at this event.

Yours sincerely

David De Meo
Deputy Principal – Senior School
